EIRA HIGH SCHOOL
FOR ADULTS

To find a learning strategy that really works is vital. I learn best by taking notes and listening to teachers.

Why?

Students think that

- they do not know their own study skills
- they do not have enough knowledge of study skills
 - there is not enough time for study skills during regular lessons

WELCOME

You have to struggle to get good grades. But also remember to take a break every once in a while.

How?

- Students answered a questionnaire online
- It measured their study skills
- And addressed their learning problems
- Students' own learning tips in bubbles were scattered around the school
- There was no tuition during workshops
- Workshops were organized by teachers and student counsellors

In a happy hullabaloo students

Start working on day one. If you do not understand something, ask the teacher or your classmate. Doing homework with a fellow student is great fun.

- asked questions
- learnt new skills
- used their brains
- exchanged ideas
- came up with new innovations
- laughed and had a great time with their fellow students at karaoke and speed dating organized by the Student Union
